INTERVIEW READY

A quick checklist for IT Support, Business Analyst and QA Tester fresher interviews

BEFORE THE INTERVIEW

■ Read the job description and identify key skills. ■ Prepare a 60-second introduction. ■ Prepare 3 genuine STAR examples. ■ Check audio, internet and a quiet environment.

DURING THE INTERVIEW

■ Listen to the full question. ■ Clarify assumptions. ■ Answer directly, then explain your reasoning. ■ Use STAR for behavioural questions. ■ Be honest about what you know and are learning.

ROLE-SPECIFIC REMINDERS

IT SUPPORT	Clarify symptoms and impact → check simple causes → troubleshoot safely step by step → keep the user informed → document actions → escalate when appropriate.
BUSINESS ANALYST	Clarify the business goal and stakeholders → distinguish requirements from solutions → define acceptance criteria → consider scope and traceability.
QA TESTER	Understand expected behaviour → cover positive, negative and boundary cases → record steps, expected vs actual result, environment and evidence.

RESPONSIBLE AI

■ Verify important facts and sources. ■ Do not memorise unverified answers. ■ Never invent experience, qualifications or certifications. ■ Protect personal and confidential data.

AFTER THE INTERVIEW

■ Record feedback. ■ Pick three improvement areas. ■ Practise weak topics and update your answer bank.

Reminder: AI-generated scores are coaching estimates, not official employer assessments. Use real examples and verify factual claims.
